The MCINCR-MCBQ SAPR Office has implemented a new protocol for all SAPR VAs who encounter personnel who have concerns about social media victimization or sexually explicit internet postings (either from the publication or release of consensual or non-consensual online sexual activity, sex videos, nude photos, or sexual extortion) in order to ensure that all personnel are provided with the appropriate resources, guidance, and assistance.

All individuals will be treated with dignity, respect, and compassion.

The Agencies listed below are available 0730-1630 Monday – Friday, except on Federal Holidays. A listing of 24/7 Crisis Support Lines, Behavioral Health, and Mental Health support services are available for those undergoing emotional distress after-hours.
